

How to PLAY ELEPHANT

YOU WILL NEED:

- A ball or orange per player
- A pair of tights per player
- Filled water bottles

Place the water bottles in 2 straight lines
make the game into a relay + get the players
into 2 lines behind the bottles

Put the orange/ball into the foot part of the
tights. The player is now ready to swing!

The aim is to knock down each water bottle by
swinging the orange/ball just using their head.
(it sounds a lot easier than it is!)

Once one person goes, restand
the bottles for next team member
The first team to all knock down
the bottles wins!
